Entrepreneurship: A Choice in Any Career Cluster

Entrepreneurship education brings together the core academic, technical, and problem-solving skills essential for future entrepreneurs and successful workers in future workplaces. Young, creative minds can produce products and services that only need a dream, enthusiasm, and support to make them viable. Connecting education to economic growth industries is vital to Michigan's growth and prosperity and can be enhanced through entrepreneurship and small business creation.

It is the policy of the Michigan Department of Education that no person on the basis of race, color, religion, national origin or ancestry, age, gender, height, weight, marital status, or disability shall be subjected to discrimination in any program, service, or activity for which it is responsible, or for which it receives financial assistance from the U. S. Department of Education. For further information, contact the Civil Rights Coordinator, Office of Career and Technical Education, P.O. Box 30712, Lansing, MI 48909. (517) 241-2091.
